I further understand that the City of Plano’s Housing Rehabilitation Program (Program) defines an emergency as one that poses a serious or immediate threat and is of recent origin. I further certify that I am unable to finance the emergency repair and lack other sources of funding for said repair. The Program defines these aforementioned parameters below:

S. Department of Housing and Urban Development (HUD).

As part of the City of Plano’s (City) quality control measures, City staff has informed me that either the City or the contractor hired to complete the repair will take pictures of or video the repair both pre and post completion. I agree to allow either the City or the contractor to take said photography or video.

4. My failure to maintain the equipment or repaired item may void my warranty;
5. I am responsible for any damage caused to the installed equipment or repaired item;

7. Should I place a service call to the vendor who originally made the repairs and *if* the repairs made are not covered by the warranty, I will be charged for the repair and will be responsible for making direct payment to the contractor;

PROPERTY CONDITION REVIEW**

For all Housing Rehabilitation Assistance, the Applicant understands and agrees that:

1. The City of Plano, Texas (City) offers a Housing Rehabilitation Program, funded by the Community Development Block Grant (CDBG) and HOME Investment Partnership Funds from the U. S. Department of Housing and Urban Development (HUD). The Housing Rehabilitation Program (Program) is administered by the Community Services Division through the Neighborhood Services Department at 7501-A Independence Pkwy, Plano, Texas 75025.
2. The purpose of the Housing Rehabilitation Program is to provide funding for housing repairs considered essential to the occupant's health, safety and welfare. The program does not cover remodeling of the residence. Approval of repairs is subject to:
 - a. The property meeting the housing rehabilitation program's minimum property standards and inspection by the Rehabilitation Estimator and other third party structural engineers (as appropriate) and energy audit professionals;
 - b. The repairs meeting the City of Plano's Housing Rehabilitation Program's Policies and HUD regulations;
 - c. Prioritization according to the following order: (1) health and safety; (2) removal of code citations; (3) energy efficiency; and (4) eligible owner requested repairs.
 - d. The property's post rehabilitation value not exceeding 95% of the median price in the DFW metropolitan statistical area, and the pre-rehabilitation value not exceeding 85% of the median price in the DFW metropolitan statistical area; and
 - e. The Housing Rehabilitation Program's eligibility and approval guidelines, which includes but is not limited to: the existing equity in and liens on the property; before and after appraised value of the property; creditworthiness and HUD-income qualification of the property owner; appropriate title to the property; other financial considerations; and availability of HUD funding.
3. About the inspection process:
 - a. Inspections are only conducted after you have been given conditional approval for the rehabilitation assistance.
 - b. The inspection is not an exhaustive inspection of the structure, systems, or components.
 - c. The inspection does NOT verify compliance with manufacturer's installation instructions. The inspection does NOT imply insurability or warrantability of the structure or its components. The inspection does NOT anticipate future events or changes in performance of components or equipment due to changes in use or occupancy. **The inspector ONLY inspects to the Housing Rehabilitation Program's (HRP) Minimum Property Standards and the assistance type for which you have submitted an application.** The inspection identifies general deficiencies that include inoperability, material distress, water penetration, damage, deterioration, missing components and unsuitable installation.
 - d. An inspection addresses only those components and conditions that are **present, visible and accessible** at the time of inspection. It is your responsibility for providing the City's inspector access to the property to conduct an inspection. Access includes ensuring that all building components and equipment are visible to the inspector. The inspector will not turn on decommissioned equipment, systems, utility services or apply

an open flame or light a pilot to operate any appliance and determine operability. The inspector will not climb over obstacles, move furnishings or stored items.

- e. At its discretion, the City may seek evaluations by qualified tradesmen/engineers that may lead to the discovery of additional deficiencies. The additional deficiencies are only included as permitted by the HRP's Minimum Property Standards.
 - f. It is your responsibility to provide the inspector with as much information about the current condition of your property prior to the inspection date. This may include providing copies of previous inspection report(s) or completed repairs by third parties. It is not the inspector's responsibility to confirm that information obtained from these sources is complete or accurate or that the City's inspection results is consistent with the opinions expressed in previous or future reports.
 - g. Property conditions change with time and use. For example, mechanical devices can fail at any time, plumbing gaskets and seals may crack if the appliance or plumbing fixture is not used often, roof leaks can occur at any time regardless of the apparent condition of the roof, and the performance of the structure and the systems may change due to changes in use or occupancy, effects of weather, etc. These changes or repairs made to the structure after the inspection may render information contained in the inspection obsolete or invalid. It is your responsibility to inform the inspector of any such changes prior to the completion of the scope of work by the City and the execution of the construction contract.
 - h. The City is not required to change the scope of work after the start of construction if you failed to provide information regarding changes to the condition of the property prior to the completion of the scope of work and the execution of the construction contract.
 - i. Keep in mind that building codes or common construction practices change over time. Your home may have been built under different codes and/or practices that are inconsistent with current ones. Functioning components in good repair may not be included in the scope of work to merely meet the existing codes or construction standards.
4. What may you expect during the construction?
- a. Schedules are hard to follow or maintain due to severe weather, unforeseen delays in delivery of material or availability of workers, and inspection hold-ups.
 - b. Construction breeds dirt and noise. Be prepared for dusty and irritating conditions. Remove from your house what you want to protect. At a minimum, cover your household items.
 - c. Accidents can happen; things can break. Store all valuables temporarily somewhere outside of your house (for example at a relative's home), or in a room where no work is taking place.
 - d. Your household routine will be disrupted. You may not be able to sleep late, have company over without work going on, and you may have to keep a close eye on pets so they don't get out with all of the traffic coming in and out of your house, or damage completed work.
 - e. When working with your electrical, plumbing, or heating/cooling systems, you may be without service for a few hours.
