Plano Reports Sanitary Sewer Overflow

The City of Plano is reporting a sanitary sewer overflow at Glen Eagles Golf Course. The estimated overflow volume is 100,000 gallons. The wastewater is flowing into White Rock Creek. Once the flow is contained, Plano Public Works Department personnel will walk the creek to verify no adverse effects to water or aquatic life. They are monitoring the overflow around the clock and will be performing clean-up of the affected area once the overflow is stopped. Although the City of Plano has experienced this overflow of domestic wastewater, the public drinking water is not affected and continues to be safe for consumption.
