

Residents are urged to ensure children and pets are indoors during the time of spraying. The City encourages citizens to follow common prevention practices: DRAIN standing water in and around your home and neighborhood. DRESS appropriately before going outdoors. DEET (N, N-diethyl-m-toluamide) is an ingredient to look for when purchasing insect repellent. The use of bug spray is recommended at all times, when outdoors, especially during the day.

At this time, the Centers for Disease Control (CDC) has no data to suggest that this new coronavirus or other similar coronaviruses are spread by mosquitoes or ticks. The main way that COVID-19 spreads is from person to person. See [How Coronavirus Spreads](#) for more information.

Citizens with concerns or questions can call the City of Plano Environmental Health and Sustainability Department at 972-941-7143.
