After my baby boy was born, I wanted to check all the different bills and charges to make sure I wasn’t being overcharged. There was absolutely no time, so I called my Health Pro and they found several mistakes. They worked everything out between the hospital and the insurance company, and I saved $500.

When I hurt my knee, my doctor told me I needed an MRI. Luckily I used Compass to check prices first because the hospital was going to charge me $1000 more than the imaging center across from my office. Compass also recommended a surgeon to perform the procedure, and he had the best bedside manner of any doctor I’ve been to.

I was taking four different medicines, three of them name brand. My Health Pro found lower costing alternatives and contacted my doctor. She was able to change them and I saved more than $1,500 a year.
