

STATION THIRTEEN

General Information

Station 13, located at 6901 Corporate Drive, is an 11,300 square foot facility built in 2011. It has three apparatus bays and can accommodate up to 11 personnel. The station currently houses a paramedic engine company, two wildland urban/interface brush trucks, and a reserve engine. Station 13 maintains 12 personnel throughout its three shifts. Personnel at Station 13 are specially trained in wildland urban/interface firefighting.
