

After a three year grant (and Friends of the Plano Public Library) funded trial, the 18th AIRSpace will no longer exist as a physical space at Harrington Library. The successful artist in residence concept is expanding into Spotlight Art, which will feature the same type of artist demonstrations and artist-led workshops at all five libraries. All Plano libraries currently feature art exhibit spaces, and adding hands-on, interactive time with visiting artists will allow people across the city to experience art at the library

### VET
