

CERTIFICATION OF FINAL ROOF INSTALLATION CITY OF PLANO BUILDING INSPECTION DEPARTMENTS

As a measure to ensure the safety of your home, a roof permit is required on all re-roof projects. The City of Plano provides a final roof inspection as a part of your roof permit. The Final Roof Inspection consists of:

- Attic inspection to verify vent piping thru the roof
- Rafters in position
- Water heater and furnace exhaust vents reinstalled properly.

If you choose to waive the City of Plano from performing this inspection, then you must certify that the inspection has been performed by your roofing contractor. Fax completed form to (972)941-7187 or email: buildingpermits@plano.gov.

Project Address: _____

Permit number: _____

I certify that my roofing contractor has completed a final roof inspection consisting of an attic inspection to verify vent piping thru the roof, rafters in position, and water heater and furnace exhaust vents reinstalled properly.
